

**The sun came out to shine on members of the Dover Ladies Club and friends on 24th May when they visited the Battle of Britain Memorial at Capel le Ferne. Christine Waterman, MBE, retired Dover District Council Director of Tourism and Museum, gave the visit a unique flavour with a talk about local WWII women, particularly during the evacuation from Dunkirk. Time in the Scramble Experience was thought provoking. Interacting with the tactile screens brought the Battle of a Britain to life, telling stories of the brave fighter pilots and their indefatigable ground crew. There was time to reflect in front of the Christopher Foxley-Norris Memorial Wall and pose for photos beside the iconic statue of the lone pilot gazing out over the English Channel. The afternoon ended on a high with tea and home made cakes at The Cockpit cafe. We all came away with a better understanding of those crucial times for the future of our country.**

**We can highly recommend you visit the Battle of Britain Memorial at Capel le Ferne, the staff were so helpful , it was a pleasure to visit.**
